1 Introduction

1.1 Purpose

These test cases confirm that Fee Reconciliation Desk v1.0 works on your own machine or hosting, with your own people in each role, before it is used with real money. They cover every screen, every gate, every status in the sample data, the financial controls, the security controls and recovery after a failure.

1.2 How to use this document

1. Set up the test environment in section 1.3.
2. Run the cases in order. Later cases use the state left by earlier ones.
3. Write P (pass) or F (fail) in the last column. For a fail, note the payment ID and what you saw in section 12 (Defect log).
4. Sign off in section 13 when all mandatory cases pass.

1.3 Test environment

Item	Value
Machine	The machine or hosting you will use in production
Application	Fee Reconciliation Desk v1.0, for example http://localhost:5090 or your HTTPS address
Data	Sample data on (`EnableDemoData: true`) for a fresh `data` folder
Users	`admin` plus the demo accounts: `meera` (Operations), `priya` (Counsellor), `arjun` (Finance reviewer), `kavita` and `rahul` (Finance approvers), `ananya`, `rohan`, `zara`, `dev` (students S101–S104)
Files	`sample-bank-statement.csv` from the app folder, and a copy edited as each case says
Browsers	Edge or Chrome; a second browser or a private window to sign in as a second person

> **Starting position of the sample data**
>
> Verified net ₹1,00,000; posted ₹15,000 (P3 to S103 Tuition); unallocated ₹85,000; unverified claims and cash ₹30,000 (P5, P7). The queue shows 7 payments needing action and 1 duplicate blocked (P4). The control difference is ₹0. Many cases check these numbers.

1.4 Priority

Priority	Meaning
M	Mandatory for go-live
H	High: fix before wide roll-out
L	Low: can be accepted with a workaround

2 Installation and sign-in

ID	Pri	Test	Steps	Expected result	P/F
UAT-01	M	Start with admin password	Run `start.bat` and type a 12-character password with mixed classes	Console shows *Admin password set* and *Now listening on http://localhost:5090*; browser opens the sign-in card	
UAT-02	M	Weak admin password refused	Restart and type `password` at the prompt	Console shows *Admin password ignored*; the old password still works	
UAT-03	M	Admin sign-in	Sign in as `admin`	Overview opens; audit log shows the sign-in	
UAT-04	M	Generic sign-in error	Sign in as `nosuchuser`, then as `meera` with a wrong password	Both show the same message; neither reveals whether the user exists	
UAT-05	M	Lockout	Enter a wrong password for `rohan` 5 times	Message says too many failed attempts; the correct password is refused for 10 minutes	
UAT-06	H	Admin unlocks	As `admin`, **Reset password** for `rohan`	A new temporary password is shown once; `rohan` signs in with it	
UAT-07	H	Session timeout	Stay idle for 31 minutes, then click a menu item	Sign-in card shown	
UAT-08	M	System check	As `arjun`, open **System check**	27 / 27 passing	

3 Users and roles

ID	Pri	Test	Steps	Expected result	P/F
UAT-09	M	Add a user	As `admin`, add `uat.ops` with role Operations executive	Temporary password shown once; user listed as Active	
UAT-10	M	Role change ends session	Sign in as `uat.ops` in a second window. As `admin`, change the role to Counsellor.	`uat.ops` is signed out on the next click and sees Counsellor menus after signing in	
UAT-11	M	Disable a user	As `admin`, **Disable** `uat.ops`	`uat.ops` cannot sign in; their audit entries remain	
UAT-12	M	Admin cannot lock themselves out	As `admin`, try to disable `admin` or change its role	Refused with a clear message	
UAT-13	M	Admin cannot move money	As `admin`, open P1	No propose, approve or post controls are available	
UAT-14	M	Menus by role	Sign in as each demo user	Operations has no Users; counsellors have no approval; students see only **My fee ledger** and **How it works**	

4 Bank statement import and duplicates

ID	Pri	Test	Steps	Expected result	P/F
UAT-15	M	Only Finance imports	As `meera`, open **Add payments**	No **Import bank statement** option	
UAT-16	M	Import a statement	As `arjun`, import `sample-bank-statement.csv`	Result line shows new payments, duplicates skipped, ID conflicts and rejected rows; control difference ₹0	
UAT-17	M	Re-import is safe	Import the same file again	Every row is a duplicate; no new money, posting or receipt	
UAT-18	M	Formatted duplicate	Import a row whose ID is `upi 4302-1988-4120` and amount 10000	Treated as a duplicate of P1	
UAT-19	M	Same ID, different amount	Import `UPI/430312902337` with amount 99999	Shown as *Same ID, different amount*; not counted as money	
UAT-20	H	Close a conflict	As `arjun`, open the conflict, keep the original and close with a note	Conflict closed; note in the audit log	
UAT-21	M	Bad rows rejected	Import rows with a blank ID, `abc` as amount, 0, and 200000000	All four rejected and counted; no payment created	
UAT-22	H	Column names from the bank	Import a file with headers `UTR, Narration, Remitter, Mobile, Amount`	Columns recognised; payments created	

5 Matching and allocation

ID	Pri	Test	Steps	Expected result	P/F
UAT-23	M	Auto-match on ID	Open P1	Matched to S101 on the reference; status *Matched — choose fee component*; nothing posted	
UAT-24	M	Name-only candidate	Open P9	S104 shown as a Medium candidate; status *Candidate — needs evidence*	
UAT-25	M	Evidence required for a name-only match	As `meera`, allocate P9 to S104 without evidence	**Propose allocation** stays disabled and the reason is shown	
UAT-26	M	Split pre-filled	As `meera`, open P6	Two lines pre-filled, ₹15,000 each to S101 and S104	
UAT-27	M	Cannot over-allocate	On P6, change a line to 20000	Check turns red: lines total ₹35,000 but only ₹30,000 unallocated; propose disabled	
UAT-28	M	Propose the split	Set both P6 lines to Tuition, reason "Per bank remark", **Propose allocation**	Status *Awaiting approval*; no ledger entry yet	
UAT-29	M	Stale edit refused	Open P2 as `meera` in two windows. Propose in one, then propose in the other.	The second is refused: *This payment changed while you were editing*	

ID	Pri	Test	Steps	Expected result	P/F
UAT-30	H	Request evidence	On P2, **Request evidence** with a note	Status *Waiting on payer*; note in the audit history	
UAT-31	H	Escalate	On P9, **Escalate to Finance** with a note	Owner becomes Finance reviewer	

6 Approval and posting

ID	Pri	Test	Steps	Expected result	P/F
UAT-32	M	Operations cannot approve	As `meera`, open P6	**Approve and post** not available	
UAT-33	M	Approve the split	As `kavita`, open P6, **Approve and post**	Two ledger entries and two receipts; P6 *Allocated and posted*; control difference ₹0	
UAT-34	M	No self-approval	As `kavita`, propose P1 to Admission, then try to approve it	Approve disabled with *Separation of duties* message; attempt in the audit log	
UAT-35	M	Second approver	As `rahul`, approve P1	One receipt for S101 Admission ₹10,000	
UAT-36	M	Reject needs a reason	Propose P2 with evidence as `meera`; as `kavita`, **Reject** with no reason, then with a reason	First refused; second rejects and the proposer sees the reason	
UAT-37	H	Overpayment needs a note	Propose a line above the outstanding fee; approve without a note, then with one	First refused; second posts and the note is recorded	
UAT-38	M	Safe retry after timeout	As `admin`, turn on **Fail first posting attempt**. Propose and approve a payment, then click **Retry posting**. Turn the setting off afterwards.	First attempt shows *Posting failed — retry* with nothing written; the retry posts exactly one ledger entry and one receipt per line	
UAT-39	H	AA-1 automatic posting	Only on a fresh sample book: set AA-1 to *Admission first* and restart with a new `data` folder	P1 and P3 post automatically, once each	

7 Reversals and corrections

ID	Pri	Test	Steps	Expected result	P/F
UAT-40	M	Apply a partial reversal	As `kavita`, open P8, **Apply reversal**	Negative entry of ₹5,000 for S103; P3 keeps ₹15,000 gross and nets ₹10,000; receipt *Adjusted*	
UAT-41	M	Re-delivered reversal	Import the P8 line again	Duplicate; no second reversal	
UAT-42	M	Oversized reversal	Import a reversal of 20000 against P3	*Reversal exception*; cannot be applied	
UAT-43	H	Close a reversal exception	As `kavita`, **Close without applying** with a note	Closed; nothing posted; note in the audit log	

ID	Pri	Test	Steps	Expected result	P/F
UAT-44	M	Request a correction	As `meera`, on P1 **Request correction...** with a reason	Correction waiting for approval	
UAT-45	M	No self-approval of a correction	As the requester (or a Finance user who requested it), try to approve	Refused with *Separation of duties* message	
UAT-46	M	Approve a correction	As `kavita`, **Approve correction** on P1	Compensating entry; receipt *Cancelled* with reason; P1 ₹10,000 unallocated again; original line still visible	

8 Cash and student claims

ID	Pri	Test	Steps	Expected result	P/F
UAT-47	M	Report cash	As `priya`, **Report cash collection** ₹8,000 for S104	Cash record created as *Cash — unverified*; balance unchanged	
UAT-48	M	Evidence required	Submit evidence with the deposit slip blank	Refused: both numbers are required	
UAT-49	M	Reporter cannot verify	Submit evidence. As `priya`, look for **Verify deposit**.	Not available, or disabled with the reason	
UAT-50	M	Finance verifies	As `arjun`, tick the confirmation and **Verify deposit**	Cash verified; it can now be allocated; control difference ₹0	
UAT-51	M	Student claim does not change balance	As `rohan`, report UTR `IMPS/430815344201`, ₹25,000	Shown under *Being checked*; balance unchanged; nothing revealed about whether the payment exists	
UAT-52	M	Claim links to a later bank line	As `rohan`, claim UTR `430618771204` for ₹20,000; as `arjun`, import a line `UPI/430618771204` ₹20,000	The bank line links to the claim as a strong candidate	
UAT-53	H	Claim limit	As one student, submit 6 claims	The 6th is refused with the limit message	
UAT-54	H	Mismatch case	As `zara`, raise a mismatch. As `meera`, reply and **Resolve**.	Zara sees the reply under **My cases**	

9 Student portal and data isolation

ID	Pri	Test	Steps	Expected result	P/F
UAT-55	M	Own data only	As `zara`, look through every screen	Only S103's ledger, receipts, claims and cases; no other student, no college totals, no staff names	
UAT-56	M	Direct address blocked	As `zara`, type `#detail-P6` and `#ledger-S101` in the address bar	Returns to her own ledger	
UAT-57	M	Receipt shows adjustment	As `zara`, **View receipt** for P3	Receipt number unchanged; ₹15,000 with a ₹5,000 adjustment	

10 Reports and audit

ID	Pri	Test	Steps	Expected result	P/F
UAT-58	M	Books balance	As `kavita`, open Overview after all cases above	Control difference ₹0	
UAT-59	M	Reconciliation export	As `arjun`, **Export reconciliation (CSV)** and open it in Excel	One row per payment; totals and control difference at the foot; no cell runs as a formula	
UAT-60	M	Audit integrity	As `admin`, **Verify integrity**	Chain intact	
UAT-61	M	Refusals logged	Filter the audit log for denied or blocked results	Self-approval, cash self-verification and role-denied attempts from earlier cases are present	

11 Security, hosting and recovery

ID	Pri	Test	Steps	Expected result	P/F
UAT-62	M	No access without sign-in	Open `/api/state` in a fresh private window	401 Unauthorized	
UAT-63	H	Security headers	Open the browser developer tools on any page	`Content-Security-Policy`, `X-Frame-Options: DENY`, `X-Content-Type-Options: nosniff` and `Referrer-Policy: no-referrer` present	
UAT-64	H	Script text shown safely	As a student, raise a case with text `<script>alert(1)</script>`	Shown as text; nothing runs	
UAT-65	M	Data survives restart	Close the console and run `start.bat` again	Everything from earlier cases is still there	
UAT-66	M	Restore from backup	Stop the app, rename `fee-recon-desk.json`, rename `.bak` to take its place, start	The app starts with the last-but-one state	
UAT-67	M	Damaged file is not overwritten	Stop the app, put text in `fee-recon-desk.json`, start	The app refuses to start and names the file; nothing is overwritten	
UAT-68	H	HTTPS hosting (if shared)	Open the hosted address over HTTPS	Sign-in works; cookies marked Secure	
UAT-69	M	Go-live configuration	Set `EnableDemoData` false with a new `data` folder	Empty book; no demo accounts; only `admin`
